

Get The Egyptian Look

Egyptians have always been trendsetters! Believe it or not, in the 50s, 60s and 70s, the world used to look up to our designs as a model to theirs. Though, in the past decade, young Egyptian fashion designers have made history repeat itself. You'll be surprised to know that fringes, flowers, evil eye palm and many other styles and symbols give an Egyptian-Arabic scent... Also, not to forget the big colliers (Kerdan) and anything that portrays Arabic typography. Here are some of our favourite picks from Egypt's high-profile designers.
